Natural bean flavor, fresh and comfortable

Supper oder control

The best tofu cat litter manufacturer.

DL-EASTLAND has been producing tofu cat litter with new technology since 2015.

The advanced cat litter production line adopts advanced production technology and has a complete R&D and testing department, which can produce 50,000 tons of products per month.

The price comparison is cheaper and has obvious advantages. Our company has a complete supply chain management to solve all problems such as packaging design, product selection, logistics and transportation.

Sales to more than 30 countries including the United States, Canada, Brazil, Colombia, Indonesia, Vietnam, Saudi Arabia, Bahrain, Egypt, South Korea, etc. .

Bamboo Charcoal Tofu Cat Litter Main Material

Made of natural raw materials without any additives.

Best bean dregs

No chemical additions

No fear of licking

Corn Starch

Pean Plant Fiber

Guar Gum

Bamboo Charcoal Tofu Cat Litter **Main Feature**

1. The raw materials are made of pure natural plants, which are environmentally friendly and degradable.

2. Dust free. Strong antibacterial properties.
The indoor hygiene is cleaner, cats can avoid breathing disease dust.

3. Fine particle size
Compared to the natural environment, not sticking to the claws, not sticking to the body.

4. Fast water absorption, Strong agglomeration
3 seconds sponge-like instant water absorption and extremely fast agglomeration, not easy to stick to the bottom.

5. Strong deodorization and strong odor absorption.
Tofu + activated carbon particles + deodorant factor,
multiple adsorption force, deeply lock and decompose odor.

- **Rapid Water Dissolution**
- **Can be directly flushed**

Bamboo Charcoal Cat Litter Specifications

Appearance	Cylindrical
Diameter	3 mm
Length	8-12mm
Specific Gravity(g/ml)	2.3
Absorption	>250%
Dust	<0.5%
Moisture	<12%
